# TIAGO FITAS

**SENIOR HOSPITALITY TECHNOLOGY SOLUTIONS SPECIALIST**

Lisbon, Portugal | +351 913 319 509 | tiagofitas@hotmail.com | linkedin.com/in/tiagofitas76

## PROFESSIONAL SUMMARY

Senior Hospitality Technology Solutions Specialist with over 20 years in international hospitality operations and 5+ years delivering enterprise hospitality technology solutions. Extensive expertise implementing and supporting Oracle Hospitality OPERA Cloud and OPERA PMS platforms across luxury hotel groups throughout EMEA including Kempinski, Hyatt, Marriott, Hilton, IHG, Corinthia, Rosewood. Specialized in SaaS onboarding, PMS configuration, fiscal compliance (Portugal & Spain), system integrations, data exports, interface troubleshooting, user training, and go-live support. Proven experience managing full lifecycle hospitality software implementations, from requirements analysis and configuration to integration testing, production deployment and hypercare. Combines deep technical platform knowledge with strong client-facing capabilities including pre-sales demonstrations, technical workshops, stakeholder management and post-implementation support. Fluent in five languages with extensive international hospitality operations experience.

## PROFESSIONAL EXPERIENCE

### HRS Hospitality & Retail Systems | Lisbon, Portugal

**Senior Service Delivery Specialist** | *October 2022 – Present*

- Lead end-to-end Opera Cloud PMS implementations and version migrations (Opera 5 to Opera Cloud) for luxury hotel chains across EMEA including Kempinski, Corinthia, Hyatt, Marriott, Hilton, IHG, Rosewood, and others covering full project lifecycle: configuration, fiscal setup, data mapping, interface integration, training, go-live and hypercare
- Configure and manage PMS integrations independently end-to-end: mapping, testing, and go-live across Opera IFC8 and OHIP-connected systems including Simphony/MICROS POS, in room Hotel Tech, channel managers, CRM, revenue management, and SiteMinder

- Deliver pre-sales support and product demonstrations to prospective clients; conduct webinars and consultative sessions for account managers and sales teams
- Provide Tier 1/2 technical support across 100+ hotel properties throughout EMEA, resolving complex incidents in line with SLA targets. Deliver on-site and remote training engagements as sole trainer for groups of 50+ users, with cumulative training delivered to thousands of end users and system administrators across multiple implementations.
- Independently own new configuration deployments including fiscal modules, membership/loyalty setup, rate configuration, and custom export development for individual client requirements

**Infor** | Melbourne, Australia

**Software Solutions Consultant** | *January 2020 – April 2022*

- Implemented and configured Infor CloudSuite HMS SaaS solutions for hospitality clients across Australia and New Zealand
- Delivered full-cycle SaaS onboarding: system setup, configuration, integration, data mapping, end-user and administrator training (over 50 users per engagement), and post-go-live support
- Developed customized databases and mobility applications to extend core HMS functionality for client-specific operational requirements
- Completed extensive Infor University certification program alongside implementation delivery, building deep platform knowledge across CloudSuite HMS
- Managed client-facing problem resolution end-to-end, coordinating with internal teams to meet SLA commitments

**The Brighton Savoy** | Melbourne, Australia

**Operations Manager** | *November 2018 – December 2019*

- Directed full hotel operations including front office, housekeeping, food and beverage, and maintenance across a boutique property
- Managed PMS configuration and front desk system operations, overseeing staff training and compliance with brand standards
- Delivered operational improvements recognized through management commendations and participation in the Victoria Business Leaders Program

**DoubleTree by Hilton – Hilton Hotels & Resorts** | Melbourne, Australia

**Assistant Manager** | *June 2016 – November 2018*

- Supported hotel operations management across front office, rooms division, and guest services in a high-volume full-service Hilton property
- Managed VIP guest programs, complaint resolution, and service recovery procedures using Hilton OnQ PMS
- Participated in the Hilton Elevate Management Program and served on the OH&S Committee

**Crown Towers Melbourne & Crown Metropol – Crown Casino** | Melbourne, Australia

**Hotel Duty Manager** | *February 2010 – February 2016*

- Managed 24/7 hotel operations at Crown Towers Melbourne (448 rooms including suites, tower suites, villas, and the Chairman's Villa/Penthouse) and Crown Metropol Melbourne, two of Australia's premier luxury casino hotel properties
- Supervised a cross-functional team of 100+ staff spanning housekeeping, security, drivers, porters, doormen, concierge, front desk, reservations, kitchen, club lounge and on-premises gaming staff
- Held full operational authority for all hotel incidents and VIP high-roller gaming room requirements within hotel premises, reporting directly to the General Manager and executive leadership including ownership level
- Managed VIP and celebrity guest programs, high-roller hospitality, and confidential guest protocols requiring absolute discretion and operational precision under high-pressure conditions
- Administered Opera PMS v5 across all front office functions; developed deep platform knowledge across Opera versions from Fidelio through Opera v5, with current expertise in Opera Cloud
- Completed Crown College Certificate IV in Frontline Management | Talent Management Program | OH&S Management | RSA | Senior First Aid

**Princess Cruises – Carnival Corporation** | Santa Clarita, California, USA

**Junior Assistant Purser – Shore Excursions, Crew & F&B** | *December 2005 – November 2009*

- Managed financial, administrative, and guest services operations aboard Princess Cruises vessels across international itineraries
- Coordinated shore excursion logistics, crew management, and food & beverage operations serving thousands of passengers

- Certifications: STCW95 – Standards of Training, Certification and Watchkeeping | SOLAS – Safety of Life at Sea | Lifeboat & Survival at Sea

## PERSONAL PROJECTS

### Aperture — Independent OPERA Cloud Reference | aperture-operacloud.netlify.app

**Designer, Developer & Content Lead** | *2026 – Present*

- Designed, developed and launched an independent reference library and consulting practice for Oracle Hospitality OPERA Cloud, covering 12 PMS modules, Iberia fiscal compliance catalogue, OXI XML integration samples, curated Oracle video tutorial index, and senior consultancy services
- Built and shipped a six-page production website with vanilla HTML, CSS and JavaScript, version-controlled on GitHub and continuously deployed via Netlify, including a working lead-capture form integrated with Notion CRM for founding-cohort pipeline management
- Authored all technical content drawing on production experience across EMEA luxury properties, with architecture and copy refined using Claude (Anthropic) as an AI collaborator demonstrating practical integration of large language models into a professional delivery workflow
- Demonstrates self-directed end-to-end delivery: technical writing, frontend development, product positioning, brand identity, fiscal subject-matter expertise, AI tool fluency, and operating an independent commercial offering alongside the day role
